

2023 Texas A&M Energy Institute Graduate Fellowships

Description

The Texas A&M Energy Institute is pleased to announce the call for applications for the **2023 Texas A&M Energy Institute Graduate Fellowships**.

These graduate fellowships recognize outstanding energy research work performed by Ph.D. students under the supervision of Affiliated Faculty Members of the Texas A&M Energy Institute.

Up to five fellowships are available this year in the amount of \$5,000 each. The fellowships, with a term of September through May, will be awarded in two equal payments, one in September 2023 and one in January 2024.

Five areas of interest will be given special consideration for this fellowship:

1. Energy Digitization
2. Resilient Energy and Manufacturing Supply Chains
3. Carbon Capture, Utilization and Storage and the Hydrogen Economy
4. Geothermal Energy
5. The Energy Transition

Eligibility

All **Ph.D. students** who meet the following criteria may apply for a graduate fellowship:

- Be enrolled at Texas A&M University (College Station), Texas A&M University at Galveston, Texas A&M University at Qatar, and the Texas A&M University School of Law;
- Cumulative GPA of 3.7 or higher;
- Enrolled full time (9 hours or more);
- In academic good standing;
- Perform energy research; and
- Have a primary advisor who is an Affiliated Faculty Member of the Texas A&M Energy Institute.
